**REISSUE APPLICATION DECLARATION BY THE INVENTOR**

Docket Number (Optional)

**FMC1305R**

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 5,924,398, granted July 20, 1999 and for which a reissue patent is sought on the invention entitled FLOW IMPROVEMENT VANES IN THE INTAKE SYSTEMOF AN INTERNAL COMBUSTION ENGINE

the specification of which

☐ is attached hereto.☒ was filed on July 19, 2001 as reissue application number 09/909,430and was amended on July 19, 2001, December 12, 2004, September 18, 2002, August 7, 2003, October 12, 2004, July 12, 2007, and October 1, 2007  
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming ~~more~~ less than he had the right to claim in the patent.☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The present reissue application is a broadening reissue. Claim 1, as originally issued, included at least one error. One error in claim 1 was that it included limitations which were not necessary to distinguish prior art. One specific error of claim 1 was that claim 1 as originally issued recited an "EGR assembly mounted to the EGR Inlet" which was not necessary to distinguish prior art thereby resulting in claiming less than I had a right to claim. Thus, the specific claim language of an "EGR assembly mounted to the EGR Inlet" should not have been included in claim 1. Further, each of the newly added Independent claims does not include the specific language of an "EGR assembly mounted to the EGR Inlet," that was included in Claim 1, thus broadening the scope of coverage of the independent claims.

<b>WARNING:</b>			
Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.
